Snowmobiler triggred slide near Two Top

Two Top Lionhead Range 1/22/2019 Code SS-AMr-R2-D2-I Elevation 0 Aspect N

From an email:

"...was riding with a guide group near the Two Top area and remotely triggered this <u>slide</u> as rode past this drainage on the top of the ridge. It was a north facing wind loaded slope in the 38 degree slope range. It broke about 12 inches deep and looked like it was from the last snow/wind loading."
