Natural avalanches in Hyalite

Hyalite - main fork Northern Gallatin 10/29/2019 Code SS-N-R1-D1.5-I Latitude 45.44720 Longitude -110.96200 Notes

A skier in Hyalite wrote, "Natural activity that I observed was failing at new/old interface and (generally) occurred in predictable, wind loaded locations near ridge lines. The one exception is the avalanche with the freshest debris; looks like it failed right at the end of the storm in a somewhat sheltered, mid-slope location." Photo: B. VandenBos
