

Collapses in s. Gallatin

Specimen Creek
Southern Gallatin

12/4/2019

Code

Elevation

8300

Aspect

S

Latitude

45.02650

Longitude

-111.04800

Notes

From e-mail: "Skied up to 8300 feet on Meldrum Mountain until I succumbed to the deadfall and turned around. Poor structure with facets at the ground and low coverage. Collapsing on southerly aspects where there was enough snow. Northerly aspects were unsupportable."
