## Avalanche in Goose Crk near Cooke

Goose Creek Cooke City 1/9/2021 Code SS-N-R2-D1.5-O Elevation 9000 Aspect N Latitude 45.09230

Longitude -109.95100 Notes

From email: "We suspect this happened fresh today, we wonder if those animal tracks coming in from the left triggered it. North facing, 2 ft crown, (I'd guess), about 9k feet, facing Goose Creek. So our friends (while ski cutting) triggered a very similar <u>slide</u> on this same <u>aspect</u>/elevation mid afternoon today, about 1/4 mile farther west along this ridge, looked to be same depth."
