

## **Blackmore**

Date

Mon, 01/18/2021 - 18:34

Up near Blackmore E Face with AAI Rec 2. HST approaching 30 cm above 9k. We got ECTP in 1/5 tests on E aspect, HS variable 90-135cm. We did not find surface hoar in many hand pits from Blackmore Lake up to ridgeline. Lots of graupel in the snow from the last 72 hrs.
