

Intact gropel layer at bridger l

Date

Mon, 05/09/2022 - 10:30

Activity

Skiing

found a intact graupel layer buried by 10-14" of fresh snow. Got cracking on it (ectn 17, ct 18) but no propagation. Also saw lots old of storm slabs/wind slab crowns.

Region

Bridger Range

Location (from list)

Bridger Bowl

Observer Name

William
