

Buried Crust @ Lick Creek

Date

Tue, 11/29/2022 - 14:00

Activity

Skiing

Good skiing on the backside of Lick today.

Dug a test pit on the backside out of curiosity and found 95cm of snow and a ECTN16 score @ 31cm down.

Dense slab that fractured on top of a 1F crust.

Region

Northern Gallatin

Location (from list)

Lick Creek

Observer Name

Nick Roe
