

Large Natural on Lionhead, Airplane Bowl

Date

Sat, 12/03/2022 - 10:20

Activity

Snowmobiling

From IG 12/3: It was natural. Happened last night or this morning. It hadn't slid when we left yesterday. We were first tracks in today, and there were no tracks above or below this [slide](#). Crown at the peak was around 6'. Average 2-3' crown. 10' debris piles at least.

Region

Lionhead Range

Location (from list)

Lionhead Ridge

Observer Name

Reed Malmstrom
