

Natural avalanche, Republic Creek

Date

Sat, 03/11/2023 - 16:15

Activity

Skiing

From obs 3/11/23: "Saw a deep crown today in Republic Valley. This is peak 10383 (just north east of republic peak). Crown looks about 100 feet wide and probably 5 feet deep. Couldn't see debris or how far it ran."

Region

Cooke City

Location (from list)

Republic Creek

Observer Name

Jake Mundt
