Sluffing and wet slides on blackmore

Mt Blackmore Northern Gallatin 3/22/2023 Code WL-ASc-R1-D1 Latitude 45.44190 Longitude -111.00000 Notes

Advisory Year

22-23

From obs: "I toured up Blackmore today and saw a lot of sluffing on steep terrain and very wet snow on s terrain. I pushed off a small wet <u>slide</u> that built a good amount of momentum and could've run far if the terrain allowed. I did dig a pit down to the new old snow interface and had no results in an etc."
