

Test Pit Observations in Beehive

Date

Sat, 03/30/2024 - 11:55

Activity

Skiing

Snowboarding

Our group conducted an East facing snow pit on the top of the East Beehive Ridge at around 9100', at 1 pm. Sky was OVC, wind from W at 5 mph. Snow pit was on a 15° slope. The total snow depth was 135 cm. Our results were an ECTN 22 at 35 cm down, a PST 34/100 End and 85 cm down, and a DT 21 PC at 100 cm down. No observed wind slabs on ridge south of Prayer Flag Trees. No signs of wet loose such as rollerballs at 4 pm.

Region

Northern Madison

Location (from list)

Beehive Basin

Observer Name

MSU AVY 2 Class
